

BUILD MACHESNEY
A Blueprint for the Future

**IL 251 Sidewalk Improvements
Construction Update #8
June 16, 2023**

CONSTRUCTION SUBSTANTIALLY COMPLETE !

We are pleased to report that the project has reached the point of substantial completion which essentially means that the vast majority of the improvements have been constructed.

By the end of this week, the Contractor should have all pavement and turf restoration completed and all driveway aprons opened back up for traffic. You may see crews on site from time to time over the next few weeks to address a few minor “punch list” items. Furthermore, there will also be survey crews on site to collect measurements.

We have attached a lawn care guide to this update and can't stress enough the need to water the restored turf areas in order to help establish the turf grass.

Finally, this is the last construction update for the project, and it has been a pleasure to work with all of you over the past month or so. We want to thank you for your patience and understanding throughout the during of this project and hope that you are pleased with the improvements.
